Tina,

You could get another job if needed as tech support. Pulse Secure was the problem. Everything was fine and then access dropped. It looked like it had run but in fact for heavens knows reasons it reset and I had to change the smart card setting, and then it ran. A relief!

Attached is the revision. Let me know what you think. BTW, I also changed the To: to write out CASAC

Ok, got it. You are right, the nuance matters. Thanks for the explanation. I have been on the server all morning with no issues, and Kris was too. Are you unable to run pulse secure?

Hi Tina,

I haven't been able to access the EPA server since yesterday afternoon so I can't send the revised charge to JOZ. Hopefully it'll work later today. **Deliberative Process / Ex. 5**
